Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 5 and 6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In the last two lines of claim 5, it is not clear whether applicant is positively claiming steps of forming the AM screen. In the interview of 27 October 2005, applicant's representative indicated that the intent is to positively claim forming the AM screen in the last two lines of the claim. However in claim 5, the claim language regarding the formation of the AM screen is not positively set forth. Perhaps this language should begin with the word "forming".

In the last two lines of claim 6, it is not clear whether the applicant is positively claiming steps of applying the AM screen. In the interview of 27 October 2005, applicant's representative indicated that the intent is to positively claim applying the AM screen in the last two lines of the claim. However in claim 6, the claim language regarding the formation of the AM screen is not positively set forth. Perhaps this language should begin with the word "applying".

Allowable Subject Matter

Claims 5 and 6 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The following is an examiner's statement of reasons for allowance:

With respect to claim 5 and 6, the prior art does not teach or render obvious the total combination as claimed including a gravure printing method comprising printing a plurality of colors overlapped by an application of a plurality of printing rolls wherein cells corresponding a dark ink concentration are of an AM screen and cells corresponding to photographic images cells are of a FM screen ranging from a highlight portion to a shadow portion or said portion ranging from a highlight portion to a halftone portion is the FM screen.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 7 and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Rice.

With respect to claims 7 and 8, these claims are product by process claims defined by a product and not by the process. Rice teaches a gravure printed item having a plurality of colors, which anticipates the structure of the product.

Response to Arguments

Applicant's arguments filed 08/15/2005 have been fully considered but they are not persuasive. Specifically, Rice teaches the claimed structure of the gravure printed item.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
